-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 2-12, 25, 26, 30, 31, and 38-44, drawn to method of manufacturing a cutting die having cutting blades and a cutting die manufactured with the exact same process, classified in class 76, subclass 107.1.

II. Claim 13-16, drawn to a method for producing a cutting die having a metal base which carries a sharpened ridge extending along a predetermined path, classified in class 219, subclass 77.

a. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. The invention of Group I which includes the steps of applying a blade material in a form of a powder to the area of the puddle of the melted metal to form a deposit of blade material and machining at least side surface of the deposit has a separate utility such as it could be used without the steps of moving a laser beam along the path to heat the metal and simultaneously supplying powdered metal and sharpening a ridge on the blade metal to suite it for use in cutting of the invention in Group II. Conversely, the invention of Group II which includes the step of moving a laser beam along the path to heat the metal and simultaneously supplying powdered metal and sharpening a ridge on the blade metal to suite it for use in cutting has a separate utility such as it could be used without the steps of applying a blade material in a form of a powder to the area of a puddle of melted metal to form a deposit of blade material and machining at least side surface of the deposit of the invention in Group I. See MPEP § 806.05(d).

Art Unit: 3724

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their divergent subject matter, restriction for examination purpose as indicated is proper.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor or at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR. 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ghassem Alie whose telephone number is (571) 272-4501. The examiner can normally be reached on Mon-Fri 8:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on (571) 272-4514. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-4501.
